## INSTRUMENTAL LESSONS

### STUDENT REHEARSAL/HW LOG

Student Name:.....

Tutor Group: .....

Instrument: .....

#### HOW DO I USE THIS LOGBOOK?

You are expected to regularly practice your instrument outside of lessons/school. This will ensure you make regular progress, and potentially complete exams.

- You can use this logbook to make a note of what your instrument teacher wants you to rehearse after each lesson.
- You will use this logbook to record when you rehearse and for how long etc.
- Each time you complete a rehearsal or perhaps some theory HW you need to make a brief note about what you practiced, what you felt went well (WWW), what you may have struggled with (EBI) and how long you practiced for.
- You then need to get a parent/carer/teacher to sign it off for you as evidence that you have done it.

You are also expected to take part in one of the extra curricular ensemble groups available at school, this will help develop your ensemble skills - performing and listening.

- Identify which group you attend and when and any performances/concerts you perform in with this ensemble.

## EXTRA CURRICULAR ENSEMBLE ATTENDANCE

What group/s have you been attending?

How often do you rehearse as a group? Did you attend every one?

What performances have you been in with the ensemble? (Christmas Carol Concert etc?)

What do you feel you have learned from attending this ensemble?

Are there any pieces that you would like the ensemble to do in the future?
